Puppy 1 (PC3 + C2i AND worming)

4 weeks time BIIN

Puppy 2 (PC3 + C2i + BBS3 AND worming) – Nexgard Spectra (3 mnths – includes worming) Proheart @ 6mnths  
BIIN for desex and Proheart

4 weeks time BIIN

Puppy 3 (PC3 AND worming)

Then annual

### Animal presents with 1<sup>st</sup> vacc done elsewhere

Puppy 2

4 weeks time

Puppy 3

Then annual

**If 2<sup>nd</sup> vacc elsewhere but no BBS3, use puppy 2 and change to 12 months for next vacc**

Then Annual

## CAT

### Animal presents with no vacc and less than 3 months age

1 x F3 + FIV (first)

2 weeks time BIIN

FIV (2<sup>nd</sup>)

2 weeks time BIIN

F3 + FIV (3<sup>rd</sup>)

Then annual

**Animal presents with 1<sup>st</sup> vacc done elsewhere;** if FIV done, continue as above.

FIV NOT DONE – introduce at this point and follow 2wks/2wks regime with F3 at final vacc

Then annual

### RABBIT (Bi-annual)

#### 6wks old

1 x calici

1 month time BIIN

1 x xcalici

**6 monthly thereafter**

#### 8 wks old

1 x calici

2 weeks time BIIN

1 x calici

**6 monthly thereafter**

### HORSE

**Any age – Each dose = 1ml only**

1 x tetanus and strangles (2-in-1) Vacc into muscle

2 weeks time BIIN

Strangles only

2 weeks time BIIN

2-in-1 (2<sup>nd</sup>)

Then annually 2-in-1

**Do NOT confuse with tetanus anti-toxin for when cut = 2 weeks protection only (under skin NOT intra-muscle)**

**Hendra – 2 injections EXACTLY 4 weeks apart (need to order in & check pricing)**
